

Course Credit Waiver Guidelines for Students in the Graduate Institute of Biophysics at National Central University

Approved at the Departmental Affairs Committee Meeting on November 22, 2005
Appraised and ratified at the Academic Affairs Committee Meeting on December 20, 2005
Approved at the Departmental Affairs Committee Meeting on September 28, 2007
Approved at the Departmental Affairs Committee Meeting on November 20, 2007
Appraised and ratified at the Academic Affairs Committee Meeting on March 26, 2008

- Article 1 These guidelines are provided in accordance with the *National Central University Credit Waiver Guidelines*.
- Article 2 Students who have received a grade of 70 or more for master's courses offered by a Physics department, a graduate institute of biophysics or a graduate program in a Physics department may apply for a course credit waiver; in such case, applications are restricted to courses which have not previously been counted toward the students' minimum baccalaureate graduation requirements.
- Article 3 Students who have received a grade of 70 or more for master's courses offered by a graduate institute of biophysics may not apply for a course credit waiver if such courses have previously been counted toward the student's minimum baccalaureate graduation requirements. However, students may apply for a course exemption if such courses are the same as those required by the master's program in the Graduate Institute of Biophysics [hereafter referred to as "the Institute"].
- Article 4 If the waiver is for courses taken from the Department, the full credit hours shall be granted upon confirmation of documents attesting to that fact; but if the waiver is for courses taken from other graduate programs at National Central University or at other universities, the waiver shall be subject to a review by the Institute faculty.
- Article There is no limit to the number of credit hours that can be waived for students who meet the requirements specified in Article 2, but all students are required to take at least one non-special topic course of 2 credit hours or more during their term of study in the doctoral program.
- Article 6 Matters not covered in these guidelines shall be conducted in accordance with the relevant rules and regulations of the Ministry of Education and of the University.
- Article 7 The aforementioned guidelines shall be implemented and entered into force upon approval by a meeting of the Departmental Affairs Committee and appraisal and ratification by a meeting of the Academic Affairs Committee. The same procedure applies to any amendment of these guidelines.
